

Introducing the Tyent USA , LLC

“Forever Guarantee”

Tyent USA, LLC is proud to announce what now represents the strongest commitment to customer service in the entire water ionizer industry. The longevity and reliability of our flagship products, the MMP-7070, and the all new MMP-7070 Turbo has allowed us to increase our warranty period for both products.

First, the MMP-7070 will now carry a standard 10 year warranty on parts and service.

Secondly, our MMP-7070 TURBO unit will now carry a standard **Lifetime Warranty** on parts and service.

Notice we do not use the term “limited” in our warranty!

It was important to Tyent USA to offer a warranty that had high value, and one that is not to be used as just marketing strategy with too many stipulations to have any value. Because of this, our warranty contains no stipulations, no fine print, and no hassles. There are no limitations with regards to hard water, or with regards to the amount of water that is produced by our machines. Also, there are no requirements for how many filters you must purchase or how often you need to change your filters to keep your warranty valid.

In fact, our entire warranty rules and regulations are listed in one short paragraph below.

All New Tyent USA, LLC Forever Guarantee

This Guarantee is applicable to all units purchased on or after January 15th, 2010

If our customers experience any performance issues with our cutting edge water ionizer systems, then we will fix or replace the unit (within a week in most cases). Any damaged unit will be fixed, or replaced with a comparable unit at no cost to you (excluding shipping). The only thing not covered under our warranty is accidental breakage that could be caused by dropping one of our units or damage caused from something of a similar nature. Feel free to use our units in any type of water, and produce as much water as you wish. Our advanced cleaning system, filtration, and power methods are the toughest and most advanced in the industry.

The terms above are in effect for 10 years on the MMP-7070 and forever on our MMP-7070 TURBO model.

Please take some time to compare our new warranty to our competitor’s warranties. We know that we have the best warranty in the industry, and this is just one more way that Tyent USA, LLC is setting the standard while creating “Water for Wellness”
